

Mr Seung Ho LEE

Chairman, Korea Association Technology Transfer Organization (KATTO)

CEO, DeltaTech-Korea Ltd., Korea

Since 2000 Mr Lee has been playing a great role of technology management, running DeltaTech-Korea Ltd. The company is one of the leading innovation intermediaries, providing SMEs, research institutes and universities with open innovation services such as technology mining, scout, licensing, valuation and start-up in intelligent energy, sustainable construction and clean-tech sectors. Particularly he acts as the programme advisor of Enterprise Europe Network (EEN) for 6 years, helping Korea–EU SMEs and research institutes with technology cooperation, i.e., joint development, licensing, and contract manufacturing.

Currently he is very much keen on project development of EUREKA, EUROSTAR2, H2020 and bilateral-international joint R&D. He started job career with Korea Electric Power Corporation (1988-1989), and worked with Korea International Trade Association (1989-1998) as an international trade researcher. He studied MBA (European Business Study) and post-graduate diploma (Technology marketing) in University of Ulster- Belfast, UK (2005-2007), and graduated from Dankook university-Seoul, Korea.
